

A screenshot of a bank account management GUI. The window has a title bar with standard minimize, maximize, and close buttons. The main area contains several input fields and buttons. At the top, there are fields for 'Name', 'Phone Number', 'Account Number', 'Date Opened', and 'Balance'. Below these are three radio buttons for account types: 'Checking', 'Savings', and 'Money Market'. There are also two checkboxes: 'Direct Deposit' and 'Special Savings Account'. A 'Withdrawals' field is located next to the 'Money Market' radio button. Below the input fields are five buttons: 'Open New Account', 'Close Account', 'Deposit', 'Withdraw', 'Show All Accounts', and 'Run Monthly Interest and Fees'. At the bottom, there is a large empty rectangular box, likely for displaying account details or transaction history.
